Dear Mr Lodge,

Thank you for reporting this problem to us. I have been in contact with our local footpath officer and he informs me that it has been lodged with the person in charge with "bridges and roadside fixtures" Mr Tom Shuttleworth who should be in contact with you directly.

Our local footpath officer has investigated the matter himself and found that the footpath according to the definitive map does not exist. There has never been an official public footpath across the roadway only either side of the dual carriageway.

Kind regards,
Emily Shaw
Volunteer and Policy Support Officer

Dear Emily,

Unusal problem with this footpath, according to the definitive map it does not exist! Two footpaths end at either side of the dual carriageway but there has never been an official public footpath across the roadway.

This is a very busy dual carriageway and in today's Health and Safety environment and the current financial climate I don't think we will get anywhere with it.

Regards,

Phil.

Dear Emily,

This problem had been logged by the rights of way dept. of Wigan Council and passed on to the relevant section, in this case the person in charge of "bridges and roadside fixtures" a (Mr Tom Shuttleworth) who does not appear to have sorted it out.

Rights of way dept. will speak to him about the problem.

Regards,

Phil.

Dear Philip,

A path problem report form for your attention and possible follow up.

Many thanks,

Emily

Dear Sir , After repairs to bridge on the
A580 East Lancs Road Lowton Map Ref SJ

**Details of
the Problem**

634969 the contractor (Wren Construction) removed the public footpath sign and blocked the path where it crosses the road with a crash barrier. I first reported this to WMBC footpaths dept. on 17/10/2011 and was told they would consult the contractors. After several weeks of waiting with no response I again rang on 20/2/2012 to be told that the person who deals with this was on holiday but would pass on the message. Again no response.I rang again on 18/4/2012 to be told they knew nothing about it . To date still nothing been done. Maybe you can do something because i have got nowhere.
